

Flat Printing

4-piece Wedding Invite sets start at \$996 for 100
(Set includes wedding invite, rsvp set and printed envelope)

Flat printing is a process where the invitation design is printed with ink that soaks into the paper rather than sitting on top like digital or being pressed in like letterpress. We use 100% cotton letterpress paper for the look of letterpress at a fraction of the cost. We also use 100% recycled smooth heavy card stock for a more modern look.
